Garden Mums – 4 plants per pot in red, white, yellow, purple, orange and peach

## **BIRD BOXES Hand Crafted in PA**

**\$12.85 each**

Blue Bird Boxes Specially design Thompson box to prevent competing species from entering box. The entrance way is a slot instead of a hole and therefore starlings cannot peck open a larger hole. The slot also allows the blue birds a means of escape when under attack by predators. The flat overhang acts as a deterrent for predator species from perching and the non-painted rough-cut lumber surface provides blue birds a means to grip the box when entering and exiting. Easy to clean and easy to install.

Blue Bird Chalet – Classic nesting box based on the North American Blue Bird Society nesting box dimensions with an added pitched roof and increased ventilation.

Wren Bird Box - Classic design for wren and chickadee houses with a small round entrance that eliminate competing species from nesting in the house. Painted white with an eyehook at the top for easy hanging from a tree branch. Custom colors available in quantities greater than 5. Wren and chickadees consume approximately 12,000 insects per day so they are great to have around to keep the bugs at bay!!
